

Yung Lixo - your boy (feat. lemon soda)

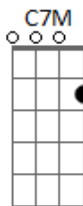

tom:
Bm (forma dos acordes no tom de Bbm)
Capostrate na 1ª casa

I'm your boy like the others (Like the others)
Do I know you don't bother? (You don't, you don't, no)
Can you back for some tea?
I was just a toy that you never kept
I'm your boy like the others (Like the others)
Do I know you don't bother? (You don't, you don't, no)
Can you back for some tea?
I was just a toy that you never kept

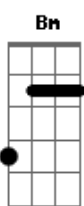

Yeah, breaking my heart, do you feel like you know me?
Lost in the dark, deep space like a movie
Nothing but the stars being getting kinda lonely
Still glad we're apart, 'cause you're not the on? for me
You lied, lied, li?d, like the some kind of monster
I fight, fight, fight, so glad that it's over
World so bright, now that I found closure
Give me some time to forget that I know her
I'm all too well, all too well being all here by myself
Don't need nobody else, you're nothing nanana
I'm all too well, all too well being all here by myself
Don't need nobody else, you're nothing nanana

I'm your boy like the others (Like the others)
Do I know you don't bother? (You don't, you don't, no)
Can you back for some tea?
I was just a toy that you never kept
I'm your boy like the others (Like the others)
Do I know you don't bother? (You don't, you don't, no)
Can you back for some tea?
