

YUNGBLUD - Mars

tom: G

She was only seventeen Bb
 Had the saddest pair of eyes that you ever seen Dm
 Wore them lips in the cold, it was matching green F
 But she can't be herself when she's somebody else Bb
 In the morning, she would take her mother's wedding ring Dm
 But school got pretty tough when they see it gleam F
 So she hid herself under the mezzanine
 Re-enacting scenes, yeah

She dreamed she'd go to California Bb
 There everyone would adore her Dm
 And all her mates will call her F
 'Til four in the morning

Is there any life on Mars? Bb
 Is there any life on Mars? Dm
 Is there any life on Mars? F

Yeah, yeah Bb
 Every morning she would wake up with another plan Dm
 Yeah, her Mum and Dad, they couldn't understand F
 Why she couldn't turn it off, become a better man
 All this therapy eats away gently Bb
 at the side of her mind that she never had Dm
 Yeah, this story told too many times, it makes me sad F
 I bet the author made a fortune out the autograph
 Give her the money back 'cause

She dreamed she'd go to California Bb
 There everyone would adore her Dm
 There everyone would adore her F

And all her mates will call her
 'Til four in the morning

Is there any life on Mars? Bb
 Is there any life on Mars? Dm
 Is there any life on Mars? F

Yeah, yeah Bb
 Is there any life on Mars? Dm
 Is there any life on Mars? F
 Is there any life on Mars?

Yeah, yeah Bb
 Do you feel like you're irrelevant? Dm
 Do you feel like you're irrelevant? F
 Do you feel like you're just scared as fuck? Bb
 Do you feel like you're irrelevant? Dm
 Do you feel like you're irrelevant? F
 Do you feel like you're just scared as fuck?

Is there any life on Mars? Bb
 Is there any life on Mars? Dm
 Is there any life on Mars? F

Yeah, yeah Bb
 Is there any life on Mars? Dm
 Is there any life on Mars? F
 Is there any life on Mars?

Yeah, yeah Bb
 Is there any life on Mars? Dm
 Is there any life on Mars? F
 Is there any life on Mars?

Is there any life on Mars? Bb
 Is there any life on Mars? Dm
 Is there any life on Mars? F
 Is there any life on Mars?
