

Zach Sobiech - Sandcastles

tom:
 F (forma dos acordes no tom de C)
 Capotraste na 5ª casa

If it's a rainy day, we can just drive away
 But it's sunny outside so we might as well stay
 Well, I'll collect some shells and you move the sand
 We'll build our little sandcastle in a far-off land

Where no one gets hurt and no one dies
 And your tears are scared of leaving your eyes
 So grab a shovel and start digging deep
 Cause our little sandcastle is all we can keep

And our little sandcastle will have a swimming pool
 A great big tower and maybe a chicken coop
 We can run around playing tag in the yard
 Oh, why does this place have to be so far?

Well the east wing is done and now for the west
 We should build a few more rooms for our friends and guests
 When we finally finish the north and the south
 I'll show you why I chose you and why you are mine

Cause your ears are like the shells I found
 They listen to my soul

And your eyes reflect the war
 And our little sandcastle seems real
 I want to leave this world and go
 To a place where

Where no one gets hurt and no one dies
 And your tears are scared of leaving your eyes
 So grab a shovel and start digging deep
 Cause our little sandcastle is all we can keep

Our little sandcastle will probably never exist
 But I like to dream and build our lives in it
 And I'm sorry for never finishing our room
 I didn't have enough time to make it as beautiful as you

When I lay my head to rest tonight
 I'll be dreaming of our little sandcastle life
 Where we'll never get hurt and never die
 And our eyes will refuse to let us cry

No one gets hurt and no one dies
 And your tears are scared of leaving your eyes
 So grab a shovel and start digging deep
 Cause our little sandcastle is all we can keep
