Do you remember
                                                                                          C7M
                                                                     Just give me your forever (give me your forever)
When we were young you were always with your friends
                                                                     I want you to know
Wanted to grab your hand and run away from them
                                                                     That you'll be the one
                                  C7M
                                                                                       C7M
I knew that it was time to tell you how I feel
                                                                     And I'll be the guy who'll be on his knees
                                                                     To say I love you
So I made a move, I took your hand
                                                                            Bm7
My heart was beating loud like I've never felt before
                                                                     And I need you
                                                                                  C7M
You were smiling at me like you wanted more
                                                                     And say I'd die for you (just give me your forever)

I think you're the one I've never seen before
