

# Zayn Malik - Flight Of The Stars

Tom: C

I go where you go  
 Go through Armageddon, girl, I got you  
 There's no goodbyes  
 Only us, so I will follow  
 Hold you close  
 Standing on the edge of no tomorrow  
 Still deep in us  
 Get that rush, so I still follow  
 I've been feeling high when I touch your body  
 Till I feel the soul inside your body  
 Can't believe my eyes, I swear you glow  
 I follow you close  
 Fingertips touch, all I want's your body  
 Fingertips touch, all I want  
 [Pré-Refrão]  
 All I want  
 All I ever wanted  
 Is in front of me  
 Right in front of me  
 We're never done  
 No, we're never done  
 This could be the end of me  
 Be the end of me  
 [Refrão]  
 I go where you go  
 Go through Armageddon, girl, I got you  
 There's no goodbyes  
 Only us, so I will follow  
 Hold you close  
 Standing on the edge of no tomorrow  
 Still deep in us  
 Get that rush, so I still follow  
 I go where you go  
 Go through Armageddon, girl, I got you  
 There's no goodbyes  
 Only us, so I will follow  
 Hold you close  
 Standing on the edge of no tomorrow  
 Still deep in us  
 Get that rush, so I still follow

I've been feeling like I deserve somebody  
 And you burn so bright you could blind somebody  
 You go, following flights of the stars  
 And these skies can get us home  
 [Pré-Refrão]  
 All I want  
 All I ever wanted  
 Is in front of me  
 Right in front of me  
 We're never done  
 No, we're never done  
 This could be the end of me  
 Be the end of me  
 [Refrão]  
 I go where you go  
 Go through Armageddon, girl, I got you  
 There's no goodbyes  
 Only us, so I will follow  
 Hold you close  
 Standing on the edge of no tomorrow  
 Still deep in us  
 Get that rush, so I still follow  
 As long as you're feelin' the same, ah-ah  
 I'll follow you into the flames, ah-ah  
 As long as you're feelin' the same, ah-ah  
 I'll follow you into the flames, ah-ah, yeah  
 [Refrão]  
 I go where you go  
 Go through Armageddon, girl, I got you  
 There's no goodbyes  
 Only us, so I will follow  
 Hold you close  
 Standing on the edge of no tomorrow  
 Still deep in us  
 Get that rush, so I still follow
