Zendaya - Neverland

```
                           tom:
                    G

                [Primeira Parte]

            G                   A
Whenever I was frightened
                        D
Or if I ever felt alone
              G           A
I turned to the night sky
                      D
And a star I call my own
               G         A
Somewhere I could run to
             Bm
Just across the Milky Way
                     G              A
If you like I could take you
                            D
It's just a light year and a day

[Refrão]

          G              D
We can sail away tonight
      Bm      A        G
On a sea of pure moonlight
         G             D
We can navigate the stars
                   A
Bring us back home
         G           D
In a place so far away
         Bm          A           G
We'll be young that's how we'll stay
        G            D
Every wish is a command
              A                        C   G   D
When we find ourselves in Never Neverland

[Segunda Parte]

                   G          A
Through all my make believe
                         D
There's some reality
            G         A
In your reflection
                          D
There's much more than you see
             G         A
All that you hope for
               Bm
You hope for today
                    G         A
Is the love someone gives you
                    D
```
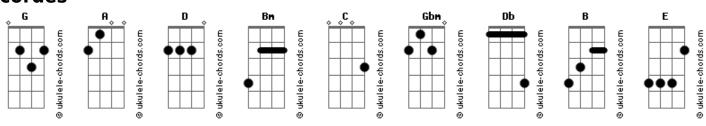

```
In an unconditional way

[Refrão]

          G              D
We can sail away tonight
      Bm      A        G
On a sea of pure moonlight
         G             D
We can navigate the stars
                   A
Bring us back home
         G           D
In a place so far away
         Bm          A           G
We'll be young that's how we'll stay
        G            D
Every wish is a command
              A                        C   G   D
When we find ourselves in Never Neverland
[Ponte]

Gbm          Db        C             B
Picture a land you never have seen
Bm                    Gbm     Db
Life is eternal and evergreen
Bm                     E
Future of happiness all in your hands
D                         Em
All in this place I created
                     E
That I call Neverland

[Refrão]

          G              D
We can sail away tonight
      Bm      A        G
On a sea of pure moonlight
         G             D
We can navigate the stars
                   A
Bring us back home
         G           D
In a place so far away
         Bm          A           G
We'll be young that's how we'll stay
             G            D
And with your hand in my hand
        A
I am closer now
                     G  D  Bm  A  G
To finding Neverland
             G            D
And with your hand in my hand
        A
I am closer now
                        D
To finding Neverland
Neverland
Neverland
```
