

# Zolita - What If

tom:  
 C (forma dos acordes no tom de G )  
 Capotraste na 5ª casa

Feels like poison C  
 Having these thoughts around you Am  
 Cause if I think too loud G  
 You might hear the doubts D  
 Just avoid it C  
 Play it off like we're perfect Am  
 Deep under the surface G  
 We both know D  
 That something ain't working D  
 Do I pick up the pieces or leave 'em C Am  
 You're asleep while I stare at the ceiling, thinking D  
 What if I lose all that we have? C Am  
 What if forever's a year and a half? G  
 What if when I pick door number two D  
 All I ever do is look for you D  
 What if our love turns into hate C Am  
 What if we're building this all just to break G D  
 I don't wanna say that's what this is but what if C Am G  
 What if it is? D  
 What if? D  
 What if? D  
 Maybe we're holding each other back C Am  
 Without me you could be the best version of you G  
 Should walk away if I love you D  
 But I hope that one day you'll get better C Am  
 G D

Someday we'll find our way back together  
 (We'll find our way)

Cause what if I lose all that we have? C  
 What if forever's a year and a half? Am  
 What if when I pick door number two G  
 All I ever do is look for you D  
 What if our love turns into hate? C  
 What if we're building this all just to break? Am  
 I don't wanna say that's what this is but what if G D  
 What if?  
 What if one day when I hear this song C  
 Say I knew it all along Am  
 Or will we listen and laugh G  
 Went to hell but we came back D  
 One day when I hear this song C  
 I'll still wish that I was wrong Am  
 Or will we listen and laugh G  
 Went to hell but we came back D  
 What if I lose all that we have? C  
 What if forever's a year and a half? Am  
 I don't wanna say that's what this is but what if G D  
 What if our love turns into hate? C  
 What if we're building this all just to break Am  
 I don't wanna say that's what this is but what if G D  
 What if it is? C Am G  
 What if? D  
 What if?  
 What if?  
 But what if?
