tom:
G
 [Primeira Parte]

G
 Now, this might sound kind of crazy

But I recognize your smile
Em7
 Well, we must both be insane

Because I swear I've known you a while
C
 It's good to see you crytsal clear

Had a vision, now you're here It's
G
 You, yeah

Yeah, it's you, yeah

It's really you

[Segunda Parte]

G
 And your smile shines even brighter

Than I've seen it in my head
Em7
 And we're from two worlds apart, but

Still there's a common thread
C
 Now it's finally been revealed

I'm in some magnetic field with
G
 You, yeah

Oh, with you, yeah

Oh, it pulled me to you

Pulled me to you, yeah

[Pré-Refrão]

D Em7 C
 And you don't have to say another word I

Already heard ya
D
 I feel you, I feel you
Em7 C
 I hear you loud and clear

[Refrão]

G
 I know that we've just met

But you know me
D
 Don't know it all just yet

But you've shown me
Em7 D C
 Exactly where I've been running

I always knew you were coming

G
 I'm being pulled to you like a magnet
D
 I don't know what it is, but we have it
Am7
 Never met someone like you
C

You're kinda like a dream come true

[Pós-Refrão]

G
 A dream come true (A dream come true)
G
 A dream come true (A dream come true)

[Primeira Parte]

G
 I don't know much about fire

But I recognize a spark
Em7
 You've spent your life with your guard Up

And you've spent yours in the dark

Yeah, but finally I see the light
C

Hmm, I won't burn you. I won't bite, not
G
 You
G
 Yeah Oh, not you, yeah. No, I won't bite

You

[Segunda Parte]

G
 And if this is just a daydream

I hope that it never ends
Am7
 And I know I'm supposed to hate you

Guess we'll have to play pretend
C
 We'll ride the wind and face it all
G
 Hope you'll catch me if I fall for you

Yeah
 If I fall for you, fall for you

(If I Fall for you)

[Pré-Refrão]

D Em7
 You don't have to say another
C
 Word I already heard you in my head
D
 I feel you, I feel you
Em7 C
 I hear you loud and clear

[Refrão]

G
 I know that we've just met

But you know me
D
 Don't know it all just yet
Em7
 But you've shown me
D C
 Ooh, I'll lift you up if you trust me

Yeah, I never thought that I'd be

G
 Feeling something this new
D

I know the wind blew me to you
 Wind, it blew me to you
 Never met someone like you
 You're kinda like a dream come true
 [Ponte]

There's no place I'd rather be
 There's no place I'd rather know

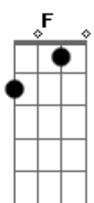

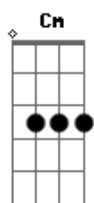

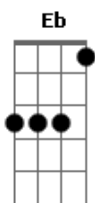

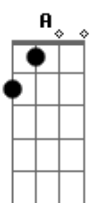

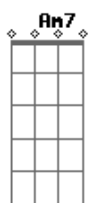

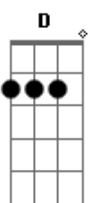

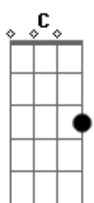

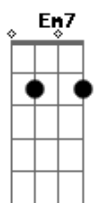

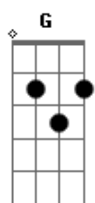

Improve me just a little
 Meet me in the middle

I don't wanna let you go
 Don't wanna let you, let you go

Don't wanna let you go

[Refrão]

Acordes

I know what you've been through, yeah
 It's heavy
 I would look out for you, if you let me
 'Cause I'm tired of complying (Tired of
 Complying)
 And you make me feel like flying
 [Refrão]

I don't see nothing else when I'm with
 You
 Even before we met, I missed you
 Never met someone like you
 You're kinda like a dream come true
 A dream come true
